

Toddlers and Babies

Toddlers and Babies are really cute but loose toddlers and babies in the party can be a problems entertainers encounter.

Babies and children under 3 are far young for the party, they don't understand what's happening and can get frightened by the noise and excitement of the party.

Therefore any toddlers and babies in the room **MUST** be kept on an adults lap for the duration of the party.

The best advice I can give is that (with the exception of the birthday Childs siblings) you limit the minimum age in the party room to 3 years old.
