

Who's Who?

Mr Wishy Washy can see hundred of children in a year so not knowing there names can be hard and fun. Especially when I sometimes call the Banana pants It's a good idea to put name stickers on the children so that both you and **Mr Wishy Washy** know who they are.

It also makes the kids feel really special when **Mr Wishy Washy** uses their name, especially if they have seen him before. "MUM! MUM! The magic man remembered me!" is something I often hear after greeting my old friends at parties.
